EDUCATION

Guru Nanak Dev Polytechnic College

Diploma in Computer Science and Engineering

Punjab, India

June 2021 -June 2024

Guru Nanak International Public

Secondary Scholl Education

Punjab, India

March 2008 -June 2021

EXPERIENCE

Industrial Training Mentor

Ryazio Technologies LLP

June 2024 - Present

Samrala, India (remote)

- I have had the privilege of guiding and mentoring trainees in various technical and professional skills essential for their career growth. My role involves a combination of technical instruction, hands-on experience, and personal development guidance.

Freelance and Business

FreeLance

December 2023 - Present

India (remote)

- Led the development and delivery of many web platforms made using WordPress projects, which enhanced the online presence of businesses

Industrial Trainee

Ryazio Technologies LLP

July 2023 - August 2023

Samrala, India (remote)

- During my tenure as a trainee, I had the opportunity to immerse myself in a comprehensive training program where I gained hands-on experience and in-depth knowledge in web development technologies and version control systems. The key areas of my learning included HTML, CSS, JavaScript, Git, and GitHub.

PROJECTS

Divine Wash & Clean Limited | WordPress, Elementor, Bookingpress, Astra

June 2024-June 2024

- Implemented an online system for customers to schedule car washing services, including service selection, date and time pickers, and confirmation notifications.

Meikle Design | WordPress, Elementor, Astra

December2024-January 2024

- Developed and designed a professional and visually appealing website for a prominent Canadian architectural firm. The project involved creating a user-friendly interface and ensuring the website effectively showcased the firm's portfolio, services, and architectural achievements.

- Led the development and design of a dynamic website for a leading Indian architect firm to showcase their innovative designs and Projects.
- Implemented an admin panel enabling image uploads, password management (change and forget), and contact form record management.

- Designed a sleek and modern personal portfolio website showcasing skills, projects, and achievements. Integrated responsive design principles for optimal viewing across devices, ensuring seamless user experience.

- Led the development of the website to empower students in grades 9 and 10, with dedicated support for grades 11 and 12. Highlighted comprehensive classes, expertly crafted study materials, and top-notch test preparation services aimed at fostering success in science education.

- Developed and crafted the website content for G.K Enterprises, emphasizing their role as Indian manufacturers and suppliers of cycle parts.
